Rate Assessment Methodology

Factors Considered

1. Role seniority and scope of responsibility
2. Technical expertise and specialized skills
3. Project complexity and impact
4. Team management responsibilities
5. Years of experience in the field
6. Current market rates for similar positions
7. Cross-project involvement
8. Leadership responsibilities

Market Considerations

- Rates aligned with Silicon Valley/Tech hub market standards
- Premium applied for specialized technical skills
- Additional compensation for leadership roles
- Adjustment for cross-project responsibilities

Notes

- Rates are suggested based on current market conditions
- Individual rates may be adjusted based on performance reviews
- Rates should be reviewed bi-annually
- Additional benefits and bonuses not included in hourly rates
